DESPERADO ROBS NIGHT OPERATOR

Indian Head Telegraph Man Was Held Up Last Night at Station

TOOK THIRTY DOLLARS

Police Arrested a Negro Shortly Afterwards While Trying to Board Freight

Indian Head, Sask., Sept. 10.—W. B. Niles, the night operator at the C.P.R. depot was held up this morning while at work in the railway office and robbed of some \$30 in cash. About two o'clock, Niles, who was at this duty as night operator found two revolvers pointed in his face and a man with a black mask behind him. Niles was ordered to open his pockets and hands and back up. The robber went to the till and took the contents amounting to some \$30. He then ordered Niles to hand him over the cash in his pocket amounting to \$10. The robber then decamped. Niles was arrested by the police shortly after, just as he was trying to board a freight.

LAW SOCIETY OF ALBERTA

The results of the Second Intermediate Examination of students-at-law conducted by the Law Society of Alberta which have been delayed have now been issued and they show that the following students have been successful in this examination:

W. D. Cow, Calgary; F. de Roussay, de Sales, Calgary; F. L. Shoultz, Calgary; H. H. Gilchrist, High River; A. Grant, Strathcona; F. Pottinger, Edmonton; N. R. Lindsay, Edmonton.

A NEW MAP

The land titles office has received from the Department of the Interior a sample of a new map just issued by the department geographers. It covers the southern half of Alberta from Athabasca Landing to the international boundary and gives all the latest information as to the extent of country available for homesteading.

ELEVATORS FOR EDMONTON

The Otis Fensom Co. are establishing at the Hudson's Bay stores an elevator system for a freight and passenger traffic. The motor generators for freight and passengers which were put in this morning, weight 5,000 lbs. each, and are capable of developing one, ten horse power, and in the twenty. The elevators have a capacity of one ton each.

Their representative informed the Capital that they will establish elevators in the Alberta Hotel and in the post office. The latter is automatic and is the first of its kind in Western Canada. It will be operated by the passenger himself by means of a button. This elevator will be in addition to the one now in use there. The shaft for it has still to be built.

Miss Geach, who has just returned from a holiday trip to the coast, is opening her school on the 12th inst., having engaged the services of Miss Lamely a fully trained certificate teacher from Ottawa. This young and flourishing school starts the term under the best possible conditions. Seeing the necessity of a kindergarten class, Miss Geach with her usual enterprise, has made arrangements for opening a class for young children. This will be appreciated by parents wishing their children to have a good grounding before taking up a more advanced course.

DROWNING AT EDSON

John Iron, a German, lost his life by drowning, within the sight of a friend named Finsterbuch, who was not able to render assistance, in the Macleod River last night, according to a report which reached the city last night. Iron, homesteaded at S. E. 34-34-16 west of the 5th M.

It is understood that the two men were on a shooting expedition. Iron had shot a bird and was going out on a raft to secure it when the raft broke away and he was thrown into the river. The current being very swift at the point he was soon carried beyond reach. The body has not yet been recovered and is believed to have gone down the river towards the Athabasca.

SENT UP FOR TRIAL FOR TRESPASSING

Starland Theatre Case Will Be Threshed Out in the Supreme Court

X. Menasse, the proprietor of the Starland Theatre, was yesterday afternoon committed for trial at the forthcoming assizes of the Supreme Court, for forcibly entering the building in which the theatre is located. An interesting legal case between the opposing counsel in the case, Messrs. C. McCauley, for the plaintiff, and H. H. Parlee, for the defendant, took place over an ancient English law, termed the "Landlords and Tenants' Act," passed in the reign of Richard II. This law has been subjected to several amendments in latter days, the last taking place in 1730 during the reign of George II.

The defence did not put in any evidence and the magistrate concluded that the contents of the prosecution merited the case being sent for trial.

Mr. Menasse was released on his own recognisance.

SEVEN PRISONERS.

Seven prisoners were taken to Fort Saskatchewan yesterday by R.N.W.M.P., among the number being Charles Woods, the murderer of Hector Murray, the G.T.P. contractor, of Alia.

Johnson and Thebaud who snatched a Chinaman in a Strathcona restaurant, to await trial. Wose, the Japanese, arrested at Dayland and sentenced to six months for theft, and the Johnson boy. Sutter, who accompanied Woods in his flight from justice was the other member of the party.

Two prisoners were also brought here to the penitentiary. John Sloan from Calgary, for two years for indecent assault, and a Lethbridge man seven years for horse stealing.

IMPERIAL VETERANS' ASSOCIATION OF CANADA

A meeting of the association will be held in the Armory of the 101st Edmonton Fusiliers, Second street, back of the Thistle rink on Wednesday night, Sept. 14, at 8 o'clock of the roll and it is the desire of the organizers to secure every man in the twin cities and districts as early as possible in order to send in the list to headquarters.

MR. McLEAN GOES SOUTH

Hon. Archibald McLean, provincial secretary, left for the south on the midnight train last night.

COUNTSSE GREY TO MEET HIM

Quebec, Sept. 10.—Countess Grey left on midnight by the Ocean Limited train for Sydney, where he will meet Lord Grey on Sunday. Her excellency was accompanied by Lady Evelyn Grey, Lord Lansdowne and Mr. S. Allen. Lord and Lady Grey will return to Quebec in a week's time.

MR. BOUILLION HAS VISIONS OF MUD!

Weather and Water Have Turned Streets Into Seas of Mud

LIFEBUOYS FOR THE CARS

And Soon Need to Teach Motor-men the Use of the Compass to Navigate

"As a city of canals, Edmonton has got it on Venice a dozen ways," said Commissioner Bouillion to a Capital reporter this morning, referring to the results of the unseasonable weather.

"I have just been talking to Superintendent Blawie of the electric railway, over the phone, and I told him that it would be advisable for him to have the heating apparatus taken out of the car and replaced by life preservers and belts for an emergency to hear of one of our cars being swamped at any time."

"It has come to the point," said Mr. Bouillion, "where we have to navigate our cars. I intend to have Mr. Blawie instruct the motormen in the use of the compass, and fender, I am going to have life preservers placed on every street corner. I am not sure yet whether they will be stationary or revolving lights. You see, one of these foggy mornings the cars will be running along Victoria avenue instead of Jasper."

"How about wireless telegraphs and submarine bells?" asked the reporter, realizing the seriousness of the situation.

"Well, eventually that will come," replied Mr. Bouillion. "We have given the matter thoughtful consideration, but you know how it is. We can't do everything at once."

"You haven't heard of any wrecks yet, have you?" inquired the reporter.

"Not yet," was the reply. "The water is still calm, but the sky looks bad in the southwest."

O.O.R. OFFICERS ARE ILL WITH TYPHOID

Col. Pellatt and Several Other Officers Stricken in London—Got It at Quebec

London, Sept. 10.—Colonel Pellatt, of the Queen's Own Rifles, is critically ill with typhoid fever here, but there are no complications. Other officers, including the medical officers and Colonel Pellatt's secretary have been stricken with typhoid and are now in the hospital. Col. Pellatt in the course of an interview, said that during the week after the officers had dined with the Eighth Rifles at Quebec some of them had been taken slightly ill. Serious symptoms developed later and before Liverpool had been reached typhoid fever appeared. None of the men were sick. Pellatt added that the British climate suited the regiment thoroughly. He put the blame on the experience at Quebec.

VICTORIAN ORDER OF NURSES

Miss Mackenzie, superintendent of the Victorian Order of Nurses, held a meeting in All Saints' school last night at which May Lee presided. In a few words he expressed his sympathy and admiration for the wonderful work the organization is doing.

Miss Mackenzie gave a short history of the order and made an urgent appeal for interest and support. Founded at the time of the Diamond Jubilee it has grown steadily ever since until throughout this country there are something like forty-seven branches.

One point which Miss Mackenzie emphasized was that the nurses were not especially for the sick, they were for the poor who cannot afford to have a trained nurse living in the house.

In such cases the nurse visits the patient every day charging a small fee for her services, and doing away with the necessity of going to a hospital unless the case is a very urgent one. A nurse of the order has been working in Edmonton since January, and Miss Mackenzie thinks that it will soon be necessary to install several more.

NEW HOME FOR LIEUT. GOV.

Government Completes Deal to Secure Site on Capital Hill

The official residence of the Lieutenant-Governor of the province is to be at Capital Hill, situated on 29 acres of the best located property in the city, the deal between the government and the firm of Caruthers, Round & Co. having been concluded this week. It has been known for some time that Capital Hill would be the location of government houses, but the official announcement was not made until yesterday.

The site for the building is in a particularly pleasing spot, overlooking the Saskatchewan river, of which a splendid view can be had from there. The price to be paid for the property is \$8,700 or \$900 a acre. The government will also contribute \$25,000 towards the erection of the Grand Riviere Bridge. The erection of the bridge will bring the Governor's residence considerably nearer the city than it will be in its present location. The car line will also be extended.

Caruthers, Round & Co. have spent a large amount of money in improving the property since it was known that Capital Hill would be the site of government house.

OFFERS TO SHOW CITY BIG FALLS

Commissioners Receive Proposition Regarding Power Scheme—Is Too Vague as Yet

Robert H. Palmer has notified the city that he has knowledge of the location of hydraulic power, in the shape of an 80-foot falls. He contends that it will just suit the city's needs and adds that he considers that enormous waterpower could be developed there. He offers to inform the commissioners of the location of the falls but stipulates that in the event of any practical use being made, that the city pay him \$2,000.

The offer was considered to be too vague by the commissioners at their meeting yesterday afternoon, but Commissioner Bouillion was instructed to inquire into the matter further.

The request of the city that the government should consider a change of the boundary on the north side of the space allotted for the government buildings has been refused by the public works department. The commissioners, however, consider that the request has been misunderstood, and contend that the change they recommended, that of widening the avenue running east and west along the boundary, would considerably improve the property. The mayor and Commissioner Bouillion will make a further attempt to have the request granted.

Mr. Wm. Short, K. C., appeared on behalf of S. Saunders, the contractor whose deposit check on a certain tender was retained by the city, as part settlement of a claim the city has against him, and requested that Mr. Saunders' check be returned. Mr. Short admitted that the city had a legal right to the money which amounted to \$800, but in view of the circumstances attending the accident, for which he had been held liable, and for which the city was partly responsible, he asked that the deposit be returned.

The Cardiff Coal company complained that the superintendent of the power plant had instructed them in the dumping of coal for use in the plant they must carry it over to the other pile, and that they must also supply their own wheelbarrows and tools for the purpose. The commissioners upheld the company and will look into the matter. The difficulty can be traced to the condition of the roads to the power house in the last few weeks.

Considerable time was spent by the commissioners in discussing methods by which each of the departments of the city could be brought more in touch with the executive body, thus resulting in better efficiency and a rapid dispatch of business.

HERE TOMORROW

W. A. MacKenzie, president of the C. N. R., and W. L. Coulson, general manager will arrive in town early tomorrow morning.

Silver Tea Sets. Jackson Bros.

BRAKEMAN GETS BLAME FOR WRECK

Coroner's Jury at Durand Finds Him Guilty of Gross Negligence

FLINT WRECK IS PROBED

Engineer of Second Train Is Also Censured for Not Watching the Track

Durand, Mich., Sept. 10.—The coroner's jury returned a verdict yesterday in which a majority of the blame for the accident is placed upon Geo. M. Graham, brakeman of train number 14, charging him with gross negligence in that he did not go a safe distance to the engine to see if the car did not place a sufficient number of corpodes in such places are required by railroad rules and which a competent railroad man would have done.

"We also place blame upon the engineer of train No. 4," continued the verdict, "for failing to take care in watching the track ahead of his train as he was running east of Durand."

MRS. GORING'S NECKLACE

There is no doubt about the fact that last night at the Empire theatre was very pleased with the Edmonton Amateur Dramatic Club's production of "Mrs. Goring's Necklace," so much so that at the most dramatic moments they burst into applause and so thrilling the tense atmosphere that was at times created.

The play is the tale of a necklace belonging to Mrs. Goring, who is on a visit to Col. and Mrs. Jardine, a fussy pair, who are at times rather inclined to quarrel. The necklace is stolen by Lieutenant David Cairn, who is engaged to Isabel Kirk, a daughter of Mrs. Jardine. Captain Mowbray, a wealthy wanderer, is suspected, and shields the young lieutenant on account of his love for Isabel. The play ends with the death of David by his own hand and the clearing of Mowbray's name.

As David Cairn, Mr. D. L. Robinson was the star of the play. His portrayal of the nervous weak-kneed young lieutenant who is in trouble and then takes the necklace to get out of it was very real. The scene where he pulls out the necklace when he is alone, and then suddenly repents in an agonized prayer for help was wonderfully done and even more touching than his hysterical confession to Mowbray.

Mr. Nash showed considerable talent, as the worldly wise calm retired army officer Capt. Mowbray, whose only lapse from the cool and collected was when he found that Isabel whom he loved, was engaged to David. In his attempts to get a confession from David was so help him, and his shielding of the culprit he impressed the audience with the dignified, yet kindly way he tried to cover up the scandal and bring peace once more.

Miss Seymour as Mrs. Jardine provided infinite amusement in her role of Mrs. Goring and her sister before Justice Larvey and a jury of six. The supposed crime was committed at Frank in May by negligently allowing a car loaded with coal to run into and kill another Frenchman.

From the evidence it was adjudged that the accused's car was second to another and he was said to have taken the spring which acts as a brake out, thus allowing the car to run, but as there was another car in front of the accused's car they were both forced to go down the grade and in this way killed the deceased.

This was all water under the mine at Frank. The jury brought in a verdict of not guilty after two hours of deliberation.

The jury added to their verdict that the attention of the government of Alberta be called to the fact that unqualified men are not permitted to act in positions where qualifications are required by law and also requested the government to examine the qualifications more closely. There was a scene in the court room after the accused was discharged. Several Frenchmen with loving arms kissed the accused and with tears of joy he sank on the court room floor.

THEY'LL REALLY GET MARRIED THIS TIME

Miss Elkins and the Duke Will Wed at Last After Many Disappointments

SEWAGE EXPERT GETS ULTIMATUM

The commissioners have notified Alex Potter, C. E. of New York, that if his report on the sewage and drainage system, and particularly the report on waterworks improvements not received before October 15th it will not be available for use.

The commissioners explain that as the fiscal year ends on October 31st it will be necessary to have the estimates for improvements to be done next year, made by that time. Therefore, if the report is not received by October 15th the commissioners will inaugurate a policy of their own and proceed with it.

A previous letter, Mr. Potter, stated to the commissioners that he would be able to forward the report on the sewage and drainage system by October 1st, but that the report on the waterworks could not be completed before the first of November.

Mr. Potter's plans and report on the Namayo Avenue storm sewer have been received by the commissioners.

A LITTLE QUESTION.

Negligence is usually atoned for at some time or other, but it is usually considered proper for the delinquent himself to pay the piper. An immigrant recently arrived in Edmonton registered at the Immigrant hall. His baggage not having arrived next morning the immigration authorities undertook to look after it while he was looking for land. The railway officials were questioned over this, but the baggage was missing till this morning when it turned up with a blue storage check on the baggage at the hall. The railway officials were not informed and the transfer company to whom the checks were delivered paid the storage and presented their bill against the baggage at the hall. The immigration officials either had to pay the bill or allow the baggage to go back to have charged double or tripled, and all because the railway neglected its business. Who should pay the damage?

WAS NOT GUILTY.

McLeod, Alta., Sept. 9.—The trial of Arthur Decoux was today concluded before Justice Larvey and a jury of six. The supposed crime was committed at Frank in May by negligently allowing a car loaded with coal to run into and kill another Frenchman.

From the evidence it was adjudged that the accused's car was second to another and he was said to have taken the spring which acts as a brake out, thus allowing the car to run, but as there was another car in front of the accused's car they were both forced to go down the grade and in this way killed the deceased.

This was all water under the mine at Frank. The jury brought in a verdict of not guilty after two hours of deliberation.

The jury added to their verdict that the attention of the government of Alberta be called to the fact that unqualified men are not permitted to act in positions where qualifications are required by law and also requested the government to examine the qualifications more closely. There was a scene in the court room after the accused was discharged. Several Frenchmen with loving arms kissed the accused and with tears of joy he sank on the court room floor.

HE CALLED TEDDY R. WHAT? YES, A LIAR

Man With More Courage Than Discretion Made This Bad Break

THE BIG STICK GOT BUSY

And the Disturber Was Hushed Off the Platform—Was a Socialist

Fargo, N. D. Sept. 10.—An incident not down on the program occurred immediately following Col. Theodore Roosevelt's address at Island Park today. It came when a stranger climbed onto the platform, questioned Roosevelt, and then denounced him as a "liar" so loudly that thousands heard him. Col. Roosevelt was the first to seize the stranger, and he did not loosen his hold until the man was ejected from the platform.

When the colonel finished his address there was a rush for the speaker's stand. The platform was enclosed with a surging, struggling mass of men and women. Some of the bolder persons mounted the steps and rushed to Col. Roosevelt's side to shake his hand.

A small, poorly dressed man pushed his way through the crowd until he could make himself heard by the colonel.

"I have a question to ask you, Roosevelt," he shouted again and again.

Col. Roosevelt watched him closely. Fighting his way through the crowd, the man at length reached the speaker's stand. He mounted the steps and stopped when he reached the top, about six feet from Col. Roosevelt.

Col. Roosevelt turned and faced him. Waving one arm, the man shouted:

"I want to know who is paying the expenses of this trip of yours about the country?"

The question angered Col. Roosevelt and his face showed it. He advanced a step toward the interrogator and spoke in a low, steady voice.

"I consider that to be an impertinent question," he said. "However, I have no objection to telling you. The expenses of the party are being paid by the magazine of which I am one of the editors."

"You lie!" the man shouted so loudly that hundreds of persons in the crowd could hear him. As he spoke, Col. Roosevelt stepped forward quickly and seized his arm just above the elbow. He pushed the arm forward, turning the man half around so that he was powerless to use the arm.

"His vigorous action did not deter the man from finishing what he had to say. He shouted out:

"I want to know who is paying the expenses of this trip of yours about the people of the United States."

Although Col. Roosevelt was the first to act, others ran quickly to assist him and even before the man had finished his remark two men had seized him. The colonel did not release his grip until the stranger was ejected from the platform.

As the man disappeared he shouted back: "Wait till you get to Milwaukee. You can't fool them there."

Some of the Fargo residents said the man was not a resident of Fargo, but he had been seen around the city, the last few days conducting street meetings at night in which he advocated Socialism. In his last address he said that while Col. Roosevelt had active the average citizen with his sophistries and platitudes, he would be exposed by the Socialists when he arrived in Milwaukee.

HAS THE LAND FEVER

That the landward movement is not confined to any one class is instanced by the arrival in Edmonton yesterday of Mr. T. W. Robinson, of Cicero, Illinois, in search of land. Mr. Robinson has been in the publishing business in Chicago for many years, having originally come from Niagara Falls, Ontario. His wife is a prominent musician but in Mr. Robinson's words, "We have contracted the land fever, and can't stay here any longer, especially as the boy has it the worst."

Mr. Robinson is much taken with the prospects in the Athabasca Landing District, and will go out there to investigate.

OLD SLIM DELL WAS IN FORM

Fanned 15 Men at Great Falls. The Barnstormers Are Doing Well

The barnstormers of the Western Canada League who congregated at Lethbridge, and left there last Saturday morning, played two games in Great Falls on Labor Day, winning both and losing one. The Great Falls Tribune says:

The score in the afternoon game was 11 to 2. The Alberta nine made 11 runs, 11 hits and 4 errors. Dell struck out 15 men. Great Falls made two runs, 3 hits and 2 errors. Yesterday struck out 8 men.

In the morning game the visitors made 5 hits and 6 errors. Rennebaek struck out three men in three innings and Hargrave 2.

SOCIETY NOTES

From the Vancouver Province.

Bill Barney, manager of the Calgary club, champions of the Western Canada League, was at the game in Seattle yesterday. He says that Calgary closed the season with a balance on the right side of the ledger. He is wanted there next season, but has not signed a contract.

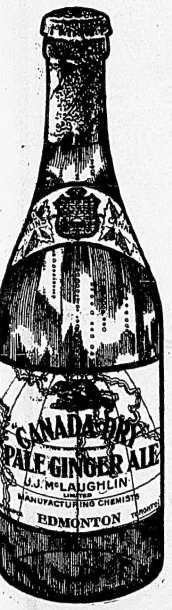

Catcher Mat Shanley is back from Calgary. He says that they play good ball in the Western Canada League, and that he likes the people of Calgary very much. "A fine town and a fine lot of people," is the way Mat puts it.

Bill Heinrich, pitcher for Washington Americans, and a brother of Lefty Heinrich of Brandon, lately sold to Chicago White Sox, is not expected to recover from infantile paralysis.

BILL HEINRICH VERY ILL

Bill Heinrich, pitcher for Washington Americans, and a brother of Lefty Heinrich of Brandon, lately sold to Chicago White Sox, is not expected to recover from infantile paralysis.

RUGBY GAME HERE ON OCT. 1ST.

Calgary Y. M. C. A. Will Meet the Eskimos at Diamond Park on That Date

Rugby enthusiasts will not have to wait until Thanksgiving Day to see a real match. Last evening the secretary of the Calgary Y.M.C.A. received an acceptance of the Eskimos offer for a game here on Saturday, October 1st.

The Calgary Y.M.C.A. have a strong team this season and are picked by Calgary fans to win their local city league.

The Eskimos will have the strongest team in their history. Three new men were discovered yesterday by manager Benjamin and will be out at today's practice, which is called for 3 o'clock at Diamond Park.

With over thirty men trying for places on the team, competition promises to be very keen and it will keep some of last year's players hustling to keep their end up.

Rev. Robt. Pearson will coach the local Y.M.C.A. team which is to be organized on Tuesday night, while C. H. Belanger, once a star, quarterback for Ottawa College, will drill the Eskimos.

NATIONALS ON THE WAY

Neway Lalonde's "Speed Boys" leave Montreal this Evening. Minto Cup in Danger

Vancouver, Sept. 10.—The British Columbia Lacrosse Association season will be brought to a close this afternoon at New Westminster when the Vancouver and Westminster teams meet for the twelfth time in the league fixture. Last year the Vancouver club, only won three league games, and the green shirts try to make it four this year by winning today. On Monday's form here they should turn the trick, particularly as the Salmonbellies may not care to extend themselves in view of the coming Minto Cup series with Montreal Nationals. Neway Lalonde's team will leave Montreal tonight and the first of the cup games will be played September 17th.

BASEBALL AT NIGHT

They are actually playing it, or trying to play it, in Chicago. The freak is explained easily. A Chicagoan eagerly welcomes any novelty, in the hope it will help him to forget he is living in Chicago. The hope, of course, is vain.

Why talk of sky that's very "high." Of sperdils lost in flight; Of optics cloaked by glasses smoked To keep the ball in sight? Just wait till men pound the pill With calculus turned on them. And Yanks and Joynts score winning points, At ten o'clock P.M.

To make the sphere to vision clear, Upon the macker's stamp We will affix soon after six. A small electric lamp. It won't "kill" this fiery pill. Be careful of the clout For if you smite it on the light Both it and you are out!

The pitcher's sin is outlined in Ten tiny bulbs aglow: The catcher's mit is brightly lit The basemen's dot, do, do, do. Behold the bright right-fielder's star.

That star is soaring at A meteor fly just hammered by An incandescent bat.

Yes, let us play with night for light. That is the toiler's right. But keep one spot upon the lot To stay as dark as night— Some little nook or nook in which, With multi-faceted thumb, Safe from the light we freely might Assassinate the ump!

—New York World.

VERY WEARY WILLIE.

"Lady" said the tall tramp, as he emerged from behind the blue bushes, "give me dat lawn mower a few minutes."

"Gracious!" exclaimed the suburban housewife, "and you are really going to push it a while? How nice of you!"

"No, mum; I'm not going to push it. I am going to put some oil on it, so it will run easier. The squeaking is due to slammers of the parks kind in de gooseberry patch." Chicago Daily News.

PENNANT RESTS WITH MOOSEJAW

Winnipeg Figures it is Case of Lethbridge, Edmonton and Saskatoon Against Brandon, Calgary and 'Peg

From the Winnipeg Free Press.

There will likely be some warm doings at the next meeting of directors of the Western Canada baseball league when the champions for 1910 will be determined. The wind-up at Calgary last week is still the talk of the fans of Edmonton and Calgary, and both claim the pennant. The board of the Western Canada League consists of a representative from each club in the league. It is expected that Lethbridge, Edmonton and Saskatoon will be favorable to Edmonton, while Winnipeg, Calgary and Brandon will undoubtedly be with Calgary. Moose Jaw it is expected will be the city to decide the issue. It may be possible to settle the matter in a satisfactory manner through this board, but it is just possible that an appeal will be made to the national board at its fall meeting.

BARNEY HAD TO BUY TICKET

Office Attend at Brooklyn Ball Park Was the "Show Me" Variety

Barney Dreyfuss, owner of the Pittsburgh National club, had to pay to see his world's champions play the Brooklyn team recently at Washington park. Barney walked up to the press gate and started to push his way through the turnstile.

"Where is your ticket?" shouted the ticket-seller.

"I am Barney Dreyfuss, who owns the Pittsburgh club," declared the magnate.

"I don't care who you are. Give me a ticket or show a pass or you won't get in," replied the ticket taker.

Barney then searched his clothes, and not being able to find his pass or a ticket he walked up to one of the windows, and, showing in a dollar bill, said to the ticket-seller:

"Will you please sell me a ticket to the grandstand?"

After the game Dreyfuss went to Charley Ebbets and said: "Charley, I had to pay my 75 cents to see my team play, but it was worth the money to see them beat your second division club."

FIGHTERS LEAVE FOR AUSTRALIA

Advance Guard of McIntosh Party Has Sailed for Kangaroo Land

Vancouver, Sept. 10.—A batch of well-known American boxers arrived in the city this morning en route to Australia. They are the advance guard of the aggregation which is going out under contract to Hugh McIntosh, the famous fight promoter, to appear in a number of important battles in Kangaroo Land. There were four in the party today, but only two were scrappers. W. S. Andrews, sporting editor of the evening Wisconsin, Milwaukee, is along with the bunch as manager and he has his wife with him. He had Ray Bronson, of Milwaukee and Cyclone Johnny Thompson with him and he will be joined here by Billy Tapke, the present claimant to the middleweight championship of America, and probably one or two others.

Battling Nelson is anxious to go and wired from Kansas City to this effect.

William Corbett, the veteran Australian fight critic, will be a passenger on the Zealandia which sails on Friday. Tommy Burns is coming up from Seattle tomorrow to see him off.

LAWYERS VS. BANANERS. If the weather clears up there will be a baseball game at Diamond Park this afternoon at 2 o'clock between the Lawyers and Bananers.

COBB IS STILL AHEAD FOR AUTO

Nap. Lajoie is Coming With a Rush, Being Merely 3 Points Behind, Snodgrass Does Well

The race among the major league batters for the Chalmers automobile is growing very exciting. Snodgrass, McGraw's young phenom, still leads the National with the city average of .360, just two points behind Tyus Cobb, the Georgia Peach, leader in the American. Nap Lajoie has recovered from this temporary slump and has now drawn up to within three points of the Tiger and the wise ones pick him for the boozing buggy. Tris Speaker is in third place in the American and is really the steadiest batter of the crowd, as he has hit consistently all season, while Cobb and Lajoie have had their safeties spasmodically.

The leading batters of the two leagues are:

National League		A. B. R. H. Ave.	
Snodgrass, N.Y.	258	44	93 .360
Kelley, N. Y.	5	8	3 .333
Campbell, Pgh.	166	27	55 .331

Philippe, the Pittsburgh veteran, led the National League batters with 12 wins and only 1 loss. King Cole of the Cubs with 17 wins in 20 games is second, while the peevish Christy Mathewson is third with 21 wins and 8 losses. Adams, Camnitz and other of last year's phenoms do not figure in the first fifteen.

The reason for the Athletics' big lead in the American is found upon scanning the pitchers' averages. Connie Mack's two stars, Bender and Goossens, are first and second, the chief having won 21 out of 26, while Goossens has been returned a winner in 23 out of 30 games pitched. Young Russell Ford of New York is third and Karger of Boston, fourth.

CATCHER IS KILLED BY BALL

Wears No Chest Protector and Sphere Hits O. O. Q. the Heart—Bride Sees Accident

Saginaw, Mich., Sept. 10.—Edward Ballard, 21 years, old, catching in a baseball game without a protector near here yesterday afternoon, failed to catch a pitched ball that hit him over the heart.

"That was a good strike, throw another one," said Ballard, as he threw the ball back. With the movement he toppled over dead.

His bride of two months was watching the game.

ALL-STAR NORTHWEST TEAM

A Spokane fan picks the following all-star team from the Northwestern League:

Spokane, catcher.
Bismarck, Tacoma, catcher.
Baker, Spokane, pitcher.
Kittling, Spokane, pitcher.
Gardner, Vancouver, pitcher.
Joss, Seattle, pitcher.
McCament, Tacoma, pitcher.
Nurdyke, Spokane, first baseman.
Rockfield, Tacoma, second baseman.
Breen, Vancouver, third baseman.
Coombs, Spokane, shortstop.
Brinker, Vancouver, left field.
Lynch, Tacoma, right field.
Frisk, Spokane, right field.
Moet, Tacoma, utility.

UHLAN BROKE WORLD'S RECORD

Driven to a Wagon by C. K. Billings, it Tots a Mile in 2:01

Hartford, Conn., Sept. 10.—The breaking of the world's trotting record in an exhibition mile by a horse driven to a wagon was accomplished at Charter Oak Park this afternoon by Uhlans, 1:58 3/4, driven by C. K. Billings of New York.

This sensational feat was witnessed by about 10,000 who wildly cheered the horse and owner as they swept under the wire. Uhlans paced by a runner made the mile in 2:01 1/4. The task undertaken was to break the record by Hamburg Belle of 2:02 3/4.

The performance of the gelding today is considered by horsemen, the best of his career, all things considered. The mark of 1:58 3/4 was made at Cleveland under track conditions decidedly more favorable than those of today, for under the surface of the course was soft owing to the heavy rains of the week. A strong wind blew across the course of the track.

As the horses swept into the stretch today the runner found it difficult to maintain a lead and as Uhlans passed under the wire a great cheer arose, although it was not then known that the track record had been broken.

When the figures were flashed the enthusiasm was renewed and Mr. Billings received an ovation when he alighted. The time by quarters was 39.34; 1:00; 1:41; 1:52 1/4.

LEAGUE FOR SASKATCHEWAN

Regina, Sask., Sept. 10.—Rugby football promises to be a popular sport in Saskatchewan this fall. Preliminary steps towards the organization of a club in Regina were taken at a meeting held tonight. There are many players of experience on Eastern teams now resident here, and it is expected a strong fourteen can be put in the field. The first practice is called for Thursday night. It is expected a league will be formed with Moose Jaw and Saskatoon and possibly Weyburn.

LE PAGE IS IN CALGARY

Geo. Le Page, the Edmonton wrestler, would like to meet a mat artist in Calgary, and is open to all comers. Le Page dropped into the Herald this morning and stated that he had been down to Spokane, where he won several mat contests against cow punchers in that district. Le Page expects to meet Max Schultz here in the near future in the auditorium rink—Calgary Herald.

NORWOOD BEAT CALLIES.

A decided surprise was handed to Callies A, city champions, last evening at the second street grounds where they were defeated by Norwood, 2-0. It was a United Ad shield fixture, and Norwood had the best of the match all through. On Monday St. Georges and Sons of England play off their much postponed game.

relieve and cure indigestion—acidity of the stomach—biliousness—flatulence—dyspepsia. They re-inforce the stomach by supplying the active principles needed for the digestion of all kinds of food. Try one after each meal.

50c. a box. If your druggist has not stocked them yet, send us 50c. and we will mail you a box.

National Drug and Chemical Company of Canada, Limited, Montreal.

BIG LUMP OF COAL

One Weighing Five Hundred Pounds From the Pembina Mines.

A lump of coal, weighing 500 pounds, taken from the mines of the Pembina Coal Company, sixty miles west of Edmonton, is on exhibition in the windows of the Western Realty company, Jasper Avenue. This sample is the largest ever shown in Edmonton, and is in itself a demonstration of what can be produced from these mines. In quality it is of a superior character, and is much better than that found in the immediate vicinity of the city, and is said to be equally as good, if not a trifle better than the Crow's Nest Pass product. An analysis shows that it averages about 88 per cent fixed carbon, while the coal found in Edmonton contains not more than 25 or 30 per cent of carbon.

The Pembina Coal company is capitalized among other prominent men, by the Duke of Sutherland and

Cecil Ward, who are heavy shareholders. Recently bonds amounting to \$7,500,000 was issued. It is expected that the company will place the coal on the market next year.

CASH FOR A THOUGHT

A Remarkable Competition that Magrath, Holgate & Co. Have Instituted

In the advertising columns of today's issue of the Capital can be seen full particulars of a large scheme Messrs. Magrath, Holgate & Co., are entering upon prior to the placing on the market of their subdivision recently purchased. This delightfully situated property bounded on the north by Alberta Avenue, on the south by Jasper Avenue, and the Saskatchewan river, is being rapidly cleared by the new owners and from almost any portion of it an absolutely ideal view of 15 miles is obtainable, embracing Clover Bar and the range of hills in the distance, while nearer the river the scenic beauty is beyond adequate description.

A charming feature of the subdivision is the elevation, rising several feet above the city level, as it affords a surprising view that cannot be equaled in and around the province. Magrath, Holgate & Co. are in need of a name that will suitably designate this property and he consistent with the high class of residence that will be erected as it has been decided to place a building restriction of \$2,500 upon the sites. As a prize for the most suitable name \$5,000 is to be awarded, the contest to be thrown open to everyone.

No lots will be sold until the name has been announced on September 21st, when further particulars will be seen in the Daily Press concerning the opening announcement and prices.

On Listening to a Nocturne of Chopin

With those that have known sorrow,
each to each,
Drings healing balm, and straight
his grief allays.
One walked with sorrow in th' untrodden ways,
And learned the truth that thought but
tears can teach.

When birds were hushed and faded
was the light,
His pale companion came to him,
and oft,
He heard her wild, sad song, with cadence soft,
That sobbed in silence in the quiet night.

Who'er with fervent fingers sinks
the keys
And links with life once more those
deathless chords,
Knows this, that here is grief too
deep for words,
For richest gems lie in unfathomed
seas,
And he who walks apart with sorrow
hears
Th' immortal music that is born in
tears.

A Safety Signal To All Who Intend Purchasing A Piano

We have had over thirty years experience in the piano business and have carefully studied piano construction in all the leading makes in Canada and United States, therefore, know just the kind of piano we wish to bear our name.

After many months of preparation and personal visits to eastern factories we are enabled to bring out the Masters Piano which is built under contract by the largest and one of the oldest and most reliable factories under the British flag. This instrument embodies our own personal ideas which we have been gathering all these years. In the building of these pianos the very best of material is used throughout and they contain all the latest improvements, coupled with a scale so even and well balanced as to bring forth expressions of admiration from all critical musicians who have tested them.

The tone durability is secured through an exact knowledge of what to use—how and where to use it, with a careful study over every detail during construction.

A cordial invitation is extended to all those who have an opportunity to call at our store and inspect these instruments.

A Special Discount of 15 per cent.

from our regular prices will be given for a short time in order to introduce them.

PEOPLE'S PULPIT

Messiah's Coming Kingdom
Spiritual

By Charles T. Russell.

Thursday, Sept. 4, Pastor Russell preached to-day in the Academy of Music, our largest Auditorium, the "Parade" being of insufficient capacity. He had a very attentive hearing. There were many Hebrews in the large audience. He said in part: "Coming events cast their shadows before." Startling shadows are all about us. A great change in the affairs of men is indicated and acknowledged by all thoughtful, intelligent people. The world's pace during the past fifty years astonishes everybody. New conditions need us on every hand. The majority of books written half a century ago along scientific lines are considered rubbish today. Rules and customs and theories of the past, supposed to be immovable and absolute, are abandoned as worthless—in chemistry, in manufactures, in art, in finance and commerce. All these changes necessitate a new view of social conditions and a re-examination of the relationship of religion and the Bible to man and his conditions, as seen from the present viewpoint. The business and social world have been compelled to keep pace with the steps of progress, some of them gladly and some of them reluctantly. But religionists have been placed in a most awkward position. Religion and moral sense constitute the backbone and fiber of the best progress in civilization. The perplexity of religious thought, and its manifest inability to adjust itself to the changed conditions, is working a serious disadvantage to all disposed to look to the Almighty for guidance in life's affairs. The increase in worldly wisdom, the improved human conditions, the advancement along scientific lines in material property have turned many of the world's brightest intellects away from God and from the Bible. Many of these, still professing Christianity in an outward, formal manner have really abandoned it in favor of a theory of "civilization." They have wandered from the Divine Revelation, the Bible, into paths of speculation—their own and other men's. They have cogitated that the reverse of the Bible statements is the truth—that instead of man falling from the image of God into sin and death, he is rising from a brute or monkey plane upward, gradually, to Divine heights. Instead of looking for a great Deliverer, Messiah, Saviour, Life-Giver, they are hoping to be let alone by any outward influence, that certain fancied laws of evolution might help them upward and onward to glory, honor and immortality.

The result is that religious thought is fast everywhere and it is all devoid of life. The whole of Chris-

tianity has practically become Agnosticism—admitting that they do not know the Truth nor how to adjust their reasoning faculties to present conditions. They are in an expectant attitude—looking light. Nevertheless many fear the light lest it shall make manifest cherished errors or selfish hopes and ambitions which must be abandoned. But they are still pretending to know many things which we and they know that they do not know. But daily the strain becomes more intense. Gradually everybody is recognizing that there is a great crisis along every line—that the people are being torn apart and that there will no longer receive their errors.

Fifty years ago Christian people, full of faith in the Bible which they honestly misinterpreted and read with sectarian spectacles of various colors, were fully agreed that God had given his Church the commission to convert the whole world and to establish Messiah's Kingdom, when the nations would learn war no more, but beat their swords into plowshares and their spears into pruninghooks. Zealous Christian people urged that the heathen were going down to a hell of thousands every twenty-four hours. And noble men and women sacrificed their earthly interests for the assistance of the heathen—to prevent that awful catastrophe, to help thwart the very program of God which some other Christian people of an earlier day had declared was predestinated and foreordained as unalterable. God was certainly attempted. We trust that some good was accomplished. We know that some harm was done, in that fallacious conceptions of the character and plan of the Creator were promulgated amongst the heathen, which have hardened and embittered some of them.

But by and by practical people sought for statistics, and now know that there are twice as many heathen in the world as there were a century ago. Of course, there are unthinking and unsatisfactory people who refuse knowledge and who are to-day claiming that God is working a serious disadvantage to all disposed to look to the Almighty for guidance in life's affairs. The increase in worldly wisdom, the improved human conditions, the advancement along scientific lines in material property have turned many of the world's brightest intellects away from God and from the Bible. Many of these, still professing Christianity in an outward, formal manner have really abandoned it in favor of a theory of "civilization." They have wandered from the Divine Revelation, the Bible, into paths of speculation—their own and other men's. They have cogitated that the reverse of the Bible statements is the truth—that instead of man falling from the image of God into sin and death, he is rising from a brute or monkey plane upward, gradually, to Divine heights. Instead of looking for a great Deliverer, Messiah, Saviour, Life-Giver, they are hoping to be let alone by any outward influence, that certain fancied laws of evolution might help them upward and onward to glory, honor and immortality.

The result is that religious thought is fast everywhere and it is all devoid of life. The whole of Christianity has practically become Agnosticism—admitting that they do not know the Truth nor how to adjust their reasoning faculties to present conditions. They are in an expectant attitude—looking light. Nevertheless many fear the light lest it shall make manifest cherished errors or selfish hopes and ambitions which must be abandoned. But they are still pretending to know many things which we and they know that they do not know. But daily the strain becomes more intense. Gradually everybody is recognizing that there is a great crisis along every line—that the people are being torn apart and that there will no longer receive their errors.

of science, progress, and modern ideas. What shall we preach? The message of damnation does not sound good to the heathen, and they do not run after it nor fear it, though souls upon it. The question comes to the ministers and professors of colleges throughout Christendom and they are perplexed what answer to give. The majority of them have become "higher critics" and no longer accept the Bible as the Word of God; they are Evolutionists and no longer believe the Gospel which the Missionary Societies were organized to proclaim. They are in perplexity. And many of them are prepared to abandon the former theory of missions and to continue their work hereafter on purely secular lines. Indeed, within the last twenty-five years missionary effort has turned gradually to secular education and medical practice in the interests of the heathen, with little religious doctrine—and so much the better.

Everybody is agreed that the Kingdom of Messiah cannot be brought about by the wholesale conversion of the world. And logical people see that larger numbers have been lost to Christianity in civilized lands during the last twenty-five years than were ever claimed to be converted amongst the heathen. We say lost to Christianity, because, why should anyone be called a Christian who has lost all faith in the Bible—in the Law, the Prophets and the teachings of Jesus and his Apostles? The great cloud of bewilderment which encompasses Christendom is walked by all earnest people—churchmen and others. And no wonder there is a certain dread associated with the dark cloud. What kind of a storm will result? And what will be the effect upon the great religious systems of civilization? It is to join hands against these ominous conditions that the clergy of all denominations are arousing themselves in favor of Church Union or Federation of some sort. But the people—the people feel comparatively little interest in the proposition, which they will oppose, however.

The difficulty with the present situation is that we have stupidly and blunderingly misread the Bible. We have twisted what we did read and picked out certain portions which pleased our fancies and supported our various creeds. We have neglected the honest, truthful study which we should have given to our Heavenly Father's message. The confusion of Christendom is the result. That confusion and perplexity the Scriptures portray, assuring us that we are in the midst of a great falling away from faith in God and in the Revelation. We see fulfilled all about us the wonderful prophetic and symbolic picture of Psalm 91. A thousand fall at our side and ten thousand at our right hand—only the "Israelites" indeed, in whom there is no guilt, will be kept from stumbling in this evil day. The chaos which we already see everywhere in evidence is only beginning. The fault of Christendom has been the rejection of the Divine Plan and

the acceptance of man's plan. The Church was going to convert the world—going to conquer the world for Jesus and present it to him as a trophy. Alas, we have not been able to convert ourselves, which is the particular work the Master gave us to do. Greater humility would have shown us our folly long ago.

Bible students do not need to be reminded that all through the Old Testament Scriptures God's promises abound, telling Israel and how the result will be that "every knee shall bow and every tongue confess to the glory of God;" of how "all the blind eyes shall be opened and all the deaf ears shall be unstopped;" of how the blessing of the Lord will be with Israel restored to his favor and operate through Israel to the blessing of all peoples. We remember the prophecies which picture earthly governments and show us their termination and the establishment of the Kingdom of Heaven on their ruins. We remember the Jubilee picture repeated by the Israelites every fifty years, proclaiming liberty for the people and restitution of all that has been lost through sin, and which is to be restored through Messiah's Kingdom.

Bible students know also how the New Testament abounds with references to the Kingdom! The Kingdom! Nearly all the parables that our Lord gave were in illustration of something connected with the Kingdom or the class called out of the world to inherit the spiritual Kingdom. All such know, too, that the Great Teacher proclaimed that Kingdom and taught us and all of his followers to pray for it, "Thy Kingdom come!" Thy will be done on earth as it is done in heaven! They all know, too, that all of the Apostles refer to the Kingdom and point the Church to its establishment for the realization of her hopes—the time when the marriage of the Lamb will take place—the time when God's New Covenant with Israel will go into effect. The time when he who scattered Israel will also gather them, and when the Law shall go forth from Mt. Zion, the Colossal Kingdom, and the words of the Lord from Jerusalem, the capital of the earthly princes. God's remedy is just what humanity is coming to realize it needs. In its establishment, as the Scriptures declare, "the desires of all nations shall come" (Haggai ii, 7).

Bible Students are more and more coming to see that this Gospel Age is the time in which Messiah is selecting from amongst men—of Jews and Gentiles—a saintly class and is testing and proving their loyalty to God and to righteousness. These are to be Messiah's assistants—the Bride, the Lamb's Wife. As Abraham typified the Heavenly Father, so the Messiah's Bride and joint-heir and co-laborer in his Kingdom was typified by Rebecca. Thus seen the great Plan of God has progressed well.

Our respect of the Word of God and our study instead of the Talmud and the creeds of the dark ages have been

our weakness. Under the wrong teaching we have failed to cultivate the fruits of the Holy Spirit—meekness, gentleness, patience, long-suffering, brotherly-kindness, love. Instead we cultivated pride, ambition, selfishness. We have done those things which we ought not to have done, and we have left undone those things which we ought to have done. Our help must come from God. According to our understanding of the Scriptures help is near, but coming in an unexpected way. Peace and selfishness-blossomed and brought forth a fruitage of strife. The bad example set by Christian people has extended to the world and been thoroughly appropriated. It has become the spirit of the world—of all classes. Now, as faith in the Bible is waning and respect for God and his word is proportionately waning, what could we expect but that which, the Scriptures

declare to be in store, misery, and "time of trouble such as never was since there was a nation?" The selfishness which both rich and poor, learned and ignorant, have cultivated well, in that time of trouble, be represented in conflicts between labor unions and capitalists. The Bible declares that then "every man's hand will be against his neighbor"—all confidence will be lost—the bond of human sympathy and brotherhood will be utterly snapped in riotous selfishness. The Scriptures identify this trouble with Messiah's taking to himself his Kingdom power and beginning his reign (Daniel xii, 1; Revelation xi, 18). Thank God, the intimations of the Scriptures are that the conflict of that time will be short. It must, however, last long enough to teach humanity a lesson never to be forgotten—that God and his arrangements must stand first and must be obeyed, if blessing is to come.

When it is remembered that, as Messiah's Kingdom is not only to bless those living at the time of its establishment, but gradually to awaken the dead from the slumber of the tomb and to give all of Adam's race a full opportunity for attaining life eternal or death eternal, then it will be seen that the Kingdom must be a spiritual one. Then, too, Messiah's Kingdom of light is represented as superseding Satan's Kingdom of darkness—both spiritual. With this thought our text is in full accord—"A King shall reign in righteousness." (Messiah) will be that Great King, his Bride being associated with him. And "princes shall execute judgment in the earth," purging out the dross and regulations of the Heavenly Messiah. This is the meaning of the Lord's promise to Israel, "I will restore thy judges as at the first, and thy counselors as at the beginning" (Isaiah, i, 26).

For Them

It is a recognized and undisputed fact that the young people about to be married are looking for some gift from you. They are on the threshold of their lives and one little act of remembrance will go far to cheer them along and make you a life-long memory in their lives. Now, can you forego them this

pleasure when wedding presents of excellent quality can be obtained for such a small remuneration? Remember that you were young once and experienced the same joys they are now amidst. Just look at those suggestions below and DON'T FORGET THEM.
